

I understand the LPFM may displace 91.1 FM in Denver which is currently the K-Love radio station that I listen to and financially support as a resident of Denver, Colorado. I strongly believe that K-Love programming is very positive for the entire Denver metro area and our community would be negatively effected if K-Love was forced off the air. Please do not allow K-Love to lose its place in our community by allowing LPFM to have priority, please maintain the position K-Love currently has on the airwaves, it may be our countries last hope!!!!
